

Biography

Albert J. Siemens, PhD

is Chairman and Chief Executive Officer of Family Health International (FHI), headquartered in Research Triangle Park, NC. His leadership has positioned FHI at the forefront of public health research, prevention, care and treatment in the developing world.

Dr. Siemens joined FHI in 1983 as Director of Clinical Trials to lead multinational contraceptive clinical research. Three years later, as FHI's Vice President of Research, he co-founded Clinical Research International (CRI), an FHI affiliate that provided clinical research services to pharmaceutical companies. He was President of CRI until it was acquired by ClinTrials Research in 1990. Following seven years as Executive Vice President of ClinTrials Research, he rejoined FHI as CEO and was appointed Chairman in 2006. Since 1999, he has also been Chairman and Chief Executive Officer of PharmaLinkFHI, an FHI affiliate that provides internet-based clinical research services.

Prior to joining FHI, Dr. Siemens oversaw clinical studies of cardiovascular, antibiotic, anti-inflammatory and psychotropic agents in domestic and international divisions of Pfizer. His clinical research and organizational leadership background is augmented by research management and teaching experience at the Research Institution on Alcoholism and the State University of New York at Buffalo. Dr. Siemens holds BSc and MSc degrees from the University of Manitoba, and a PhD in Pharmacology from the University of Toronto.
